Re: Freudenberg Performance Materials - Comments on Draft Title V Permit

---

A notice announcing the opportunity for public comment on the draft Title V Permit for Freudenberg Performance Materials was published in the Asheville-Citizen Times on March 29, 2026 and placed on the agency website. No comments were received during the 30-day public comment period, which ended on April 28, 2026.

A copy of the public notice was emailed to affected state and tribal agencies, including NC DAQ, SC DHEC, GA DNR, TN DEC, and the Eastern Band of the Cherokee Nation. No comments were received from these entities.

The draft Title V Permit and components of the application review package were sent to EPA Region 4 for review on March 29, 2026. The Agency has not received any comments from EPA and their 45-day review ended will end on May 13, 2026. If comments are received from EPA, we will amend this memo, incorporate those comments into the permit as necessary and share those comments with the Board during the May 14, 2026 Board Meeting.
