Dear MOAA (Military Officers Association of America)

Tri County Monuments would like to say thank you for giving us the opportunity to be a part of this meaningful project. We personally would like to say THANK YOU to all the Men and Women who have and are serving this great Country.

This quote covers the complete creation, custom engraving, delivery and permanent installation of one custom-sized Gray Granite Park Bench with backrest & legs to be installed on King Street in the Town of Boone adjacent to the Watauga County Veteran's Memorial. The dimensions are 72" x 14" x 2". The assembly method that we would be doing is a high-strength Do-Mo permanent two-part epoxy bonding. The bench components are fused together permanently. Disassembly is not possible without destroying the granite. We can do Do-Mo epoxy of the bench legs directly to the designated street-level surface. This installation creates a permanent, ultra-secure bond. If you ever choose to relocate or remove the bench in the future, the removal process will result in damage to the underlaying surface material. The cost of the Custom Gray Granite Bench is $4960.00 plus tax $347.00 making the project total $5307.00. Because this is a special-order size, estimated production and delivery will take 4-5 months from the date of deposit. A ½ down payment is required to initiate the special order. The remaining balance is due upon arrival and installation.

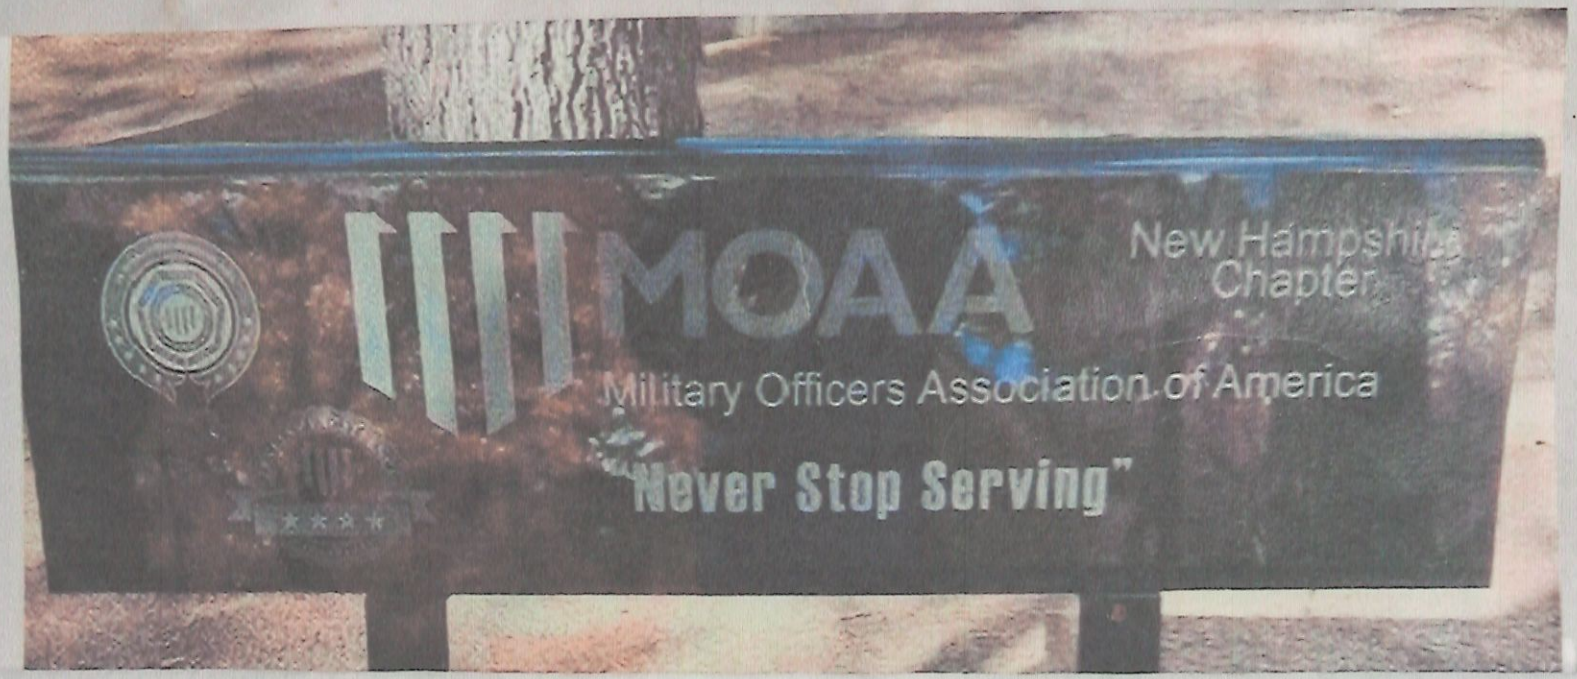

Again, Tri County Monuments would like to say thank you for giving us this opportunity.

Sincerely,

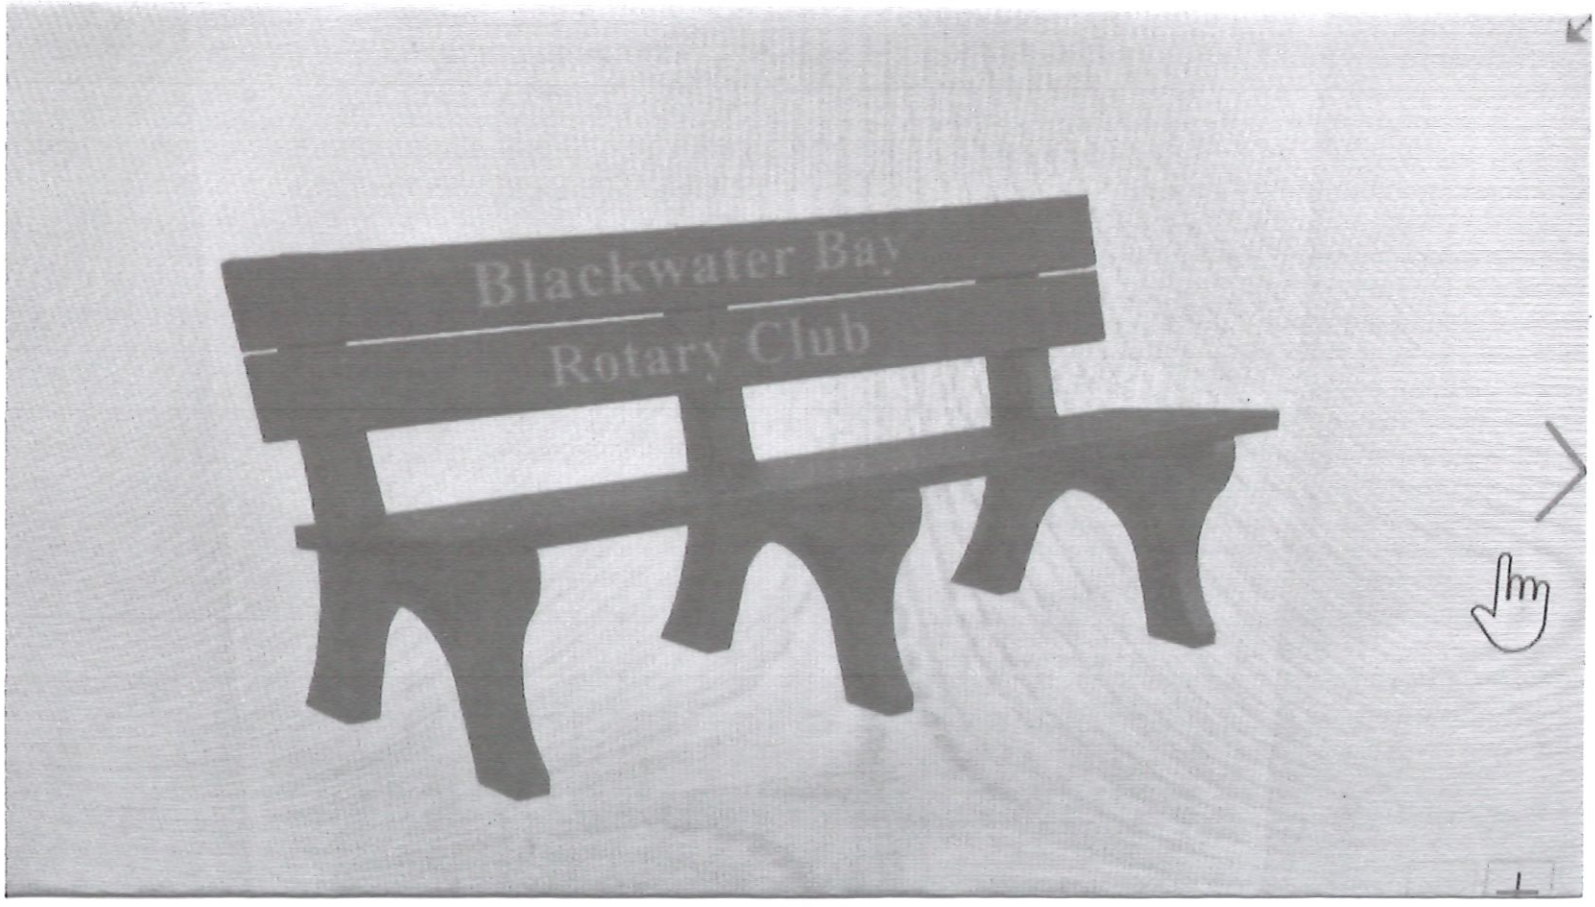

Lisa Peters
