Josh,

Thank you for taking the time to discuss the potential donation of fence components from Asheville Fence to support the rebuilding efforts at Veterans Park.

To confirm our discussion, we would like to offer the following:

* A new barrier gate and timber guardrail at the park entrance to prevent after-hours vehicular access. The gate can be either galvanized or black powder coated and will include a locking mechanism and a hold-open feature. This would replace the temporary barrier currently installed at this location.
* Replacement of the missing or damaged split rail fence at the parking area perimeter with a two-rail wood fence constructed of 4x4 posts and horizontal deck boards.
* Installation of a black chain link fence around the playground area to enhance security for families with young children.

I believe these additions would greatly benefit the park and the community.

Please feel free to contact me if you have any questions or to discuss in more detail.
