Re: Grant for 911 Center roof replacement

Previously we received a grant award from the NC911 Board to replace the existing roof on the 911 Center. This was removed from the original project due to cost.

The projected amount for the project based off quotes from the project were $ 113,131.00.

We were awarded $ 96,161.00 for the project with the County having to pay $ 16,970.00.

Reviewing the newly submitted quotes we received a quote from Hayes roofing for $ 111,500.00.

Mickey Edwards the Maintenance Director and I both have reviewed the submitted quotes and recommend Hayes Roofing to the Commissioners.
