Home of the Black Mountain Radio Sailing Club

The Club

The Black Mountain Radio Sailing Club, founded in 2005, runs races here every Wednesday and Saturday afternoon, weather permitting.

The Boats

Radio sailboats are entirely driven by the wind; the sailor controling sails and rudder with a radio transmitter. Winning races requires the skills and tactics of any form of sailing, but standing ashore together, we can chat and joke with our competitors while racing!

The Lake

The Club commissioned the landing — our "marina". Our colorful bouys provide a variety of interesting racing courses.

The People

Anyone can learn and join in the fun. Because there are no physical demands on the sailor, this sport is ideal for seniors. Give it a try. You'll probably love it!
