The Enola Group

December 10, 2024

Donald E. Duncan Jr., County Manager
Caldwell County
PO Box 2200
Lenoir, NC 28645

Dear Mr. Duncan,

The end of our lease at 609 Harper Ave is approaching and I would like to discuss with you the possibility of extending our lease at least until the end of January or beginning of February. We have heard through the community grapevine that a date has been set for groundbreaking. Can you verify this for us?

For several reasons, including the hurricane in September, our construction company is behind in their progress at our new location. In the meantime, we have reached out to another local child care center hopefully to temporarily relocate the classrooms and should know something this week. We are also working on moving things to storage and removing items that we will need at our new location. Mostly we are trying to prevent a disruption in childcare for the children and families being served.

I have reached out a few times and wasn't sure if you received my messages. Do we need to make a more formal request to the county commissioners? We would very much like to discuss this with you or at least know the potential for extending the lease at least through January. You can reach me, Dawn Curtin on my cell at 704-880-8028 or Linda Wilson at 828-604-4906.

Thank you in advance for your consideration and I look forward to hearing from you.

Sincerely,

Dawn Curtin
Director Child and Family Services and Early Head Start
