WEIGHT RESTRICTIONS: Operating overweight equipment can result in fines, damage to equipment or injury to operators. COOPERATIVE PURCHASING CONTRACTS: Cooperative purchasing contract such as NCSA, Sourcewell, etc. are a tool which satisfies the competitive bidding requirements for some municipalities. Amick Equipment (or its Body Manufacturer) are approved vendors on several contracts, authorized to offer awarded equipment according to each contract's terms and conditions. If a contract award included both body and chassis, then that contract clearly satisfies the bidding requirements for both body and chassis. Some of Amick's contracts were awarded for the body portion only. Upon request, Amick may offer a compatible chassis from another qualified contract holder or may offer a non-contract option.. Unless explicitly stated, customers shall not assume that any of the equipment quoted are being offered under a purchasing contract. It is up the purchaser to determine whether purchasing any items - both explicitly listed on the contract or not, are permitted by their organization's purchasing guidelines.
