Strategy & Innovation

Agenda

- Overtime Pay Policy
- Sustainable Fleet Policy
- PCI Compliance Policy
- Requested Board Action

Overtime Pay Policy Key Concepts

- Provides guidance for overtime compensation for eligible employees in accordance with the Fair Labor Standards Act (FLSA).
- Provides clarity regarding the standard work week.
- Confirms the overtime calculation for non-exempt employees.
- Shares authorization and responsibility expectations.

Revisions

- Removed compensatory time as a payment option. All nonexempt employees will be paid time and half for hours worked over 40 in a week, effective with the pay period starting 6/27/26.
- Added management responsibilities and reference law enforcement guidance per state statute.
- Added section explaining criteria for exempt employees. *We propose moving this policy to County Manager approved vs Board approved. The Overtime Pay policy governs internal, administrative functions, aligns to FLSA, and board approval is not mandated by state statute.

Sustainable Fleet Policy Key Concepts

- Existing policy that supports the County's goal to reduce greenhouse gas emissions.
- This policy aligns with our strategic plan objectives and furthers our move towards renewable energy.
- Aims to reduce fleet fuel consumption through fleet rightsizing, deployment of telematics, route optimization.
- Guides fleet procurement.
- Outlines process for departments to appeal the vehicle they have been assigned.
- Applies to all departments and vehicles (including grant funded).

Revisions

- Edited language to align policy to practice in consultation with the Fleet Manager.
- Moved policy language to procedural document where applicable.
- Ensures procedures provide guardrails for decision making to uphold policy intent.

  *We propose moving this policy to County Manager approved vs Board approved. The Sustainable Fleet policy governs internal, administrative operations and board approval is not mandated by state statute.

PCI Compliance Policy Key Concepts

- This is a technical policy driven by a credit card industry standard changes.
- Includes items such as training, logging, encryption, etc. • Purpose: Maintains credit card security and comply with PCI DSS v4.0.
- Applicability: Applies to all Buncombe County departments and employees.
- Compliance: Adheres to PCI DSS v4.0 for all systems handling cardholder data (updates from v3.12)
- Responsibilities: Includes vendor compliance, governance, technical controls, and training.

Revisions

- Updated the policy to align with PCI DSS v4.0 for all systems handling cardholder data (from v3.12).
- Clarified the roles of the Finance Director and Computer and Information Security Officer.
- Replaced technical language with high level control requirements.
- Updated definitions and added references.

  *We propose moving this policy to County Manager approved vs Board approved. The PCI Compliance policy is a technical policy that governs internal, administrative operations and board approval is not mandated by state statute.

Revisions

- Updated the policy to align with PCI DSS v4.0 for all systems handling cardholder data (from v3.12).
- Clarified the roles of the Finance Director and Computer and Information Security Officer.
- Replaced technical language with high level control requirements.
- Updated definitions and added references.

  *We propose moving this policy to County Manager approved vs Board approved. The PCI Compliance policy is a technical policy that governs internal, administrative operations and board approval is not mandated by state statute.

Separation	153A-92, 94
Supplemental Pay	153A-92
Sustainable Fleet	----------

- 6 of these policies do not have a state statute that requires Board of Commissioner approval
- We recommend considering moving these to County Manager approved policies

Request for Board Action

- Approve the updated Overtime Pay, Sustainable Fleet, and PCI Compliance policies and move future approval of policies from Board Approved to County Manager Approved Policies

OR

- Approve the updated Overtime Pay, Sustainable Fleet, and PCI Compliance policies
