Please use additional sheets if necessary.**

I have a BS in Agronomy from Colorado State University. I have lived in many different communities that had all sorts of public transportation. The most profound example was in Ft Collins Colorado that is a Platinum level bicycle friendly community. This community had a fantastic bus system as well as bike lanes throughout the city. As a bike commuter for more than 30 years I am very aware of the need and desire for alternative transportation in a growing and thriving community like Asheville. By creating a downtown and beyond that is safe for alternative transportation we create a safer downtown for tourists and locals alike.

November 24, 2020

Sarah Terwilliger
Deputy City Clerk
City of Asheville
70 Court Plaza
Asheville, NC 28801

Dear Ms. Terwilliger:

This note is to apply to the Multimodal Transportation Commission and includes a brief summary of interests, qualifications and references to support the on-line application form.

Regarding personal interests, I am an advocate of comprehensive urban planning, including integrated traffic flow, and firmly believe that effective urban plans are critical to support a healthy, sustainable community in so many ways (improve the climate, assist citizens without cars, benefit everyone's health, to name a few). I'm thankful Asheville prioritizes such things and hope this to be our future. I am also interested in giving back to the city and envision serving on this Commission as a wonderful way to contribute.

Professionally, I've been a consultant to industry in logistics and supply chain management for over 35 years, working with firms to optimize their supply networks. Projects have covered all freight modes (parcel shipping, rail, truck, ocean and even barges). The network optimization work typically integrates multiple modes, a wide variety of supply points, network nodes, customer requirements, service goals, and company political interests. Although I cannot claim professional experience with foot or bicycle traffic, I'm an active walker and cyclist and am quite familiar with urban walkability, cycling, and greenways concepts, as well as an avid mass transit system user when living in Atlanta for over 25 years. A native North Carolinian, I've been an Asheville resident for six years and expect to live here for the rest of my life.

For references, please contact Julie Mayfield and/or Dave Nutter. Julie is a recent Asheville City Council Member, currently N.C. State Senator elect, and former member of the Multi-Modal Commission and Transit Committee. She can be reached at julie@mountaintrue.org. Dave is a neighbor, urban planner, and recent MMT member. Dave can be reached at dnutter@aol.com.

To summarize, I feel qualified for this role because the position fits my personal interests and professional qualifications. I also feel vested in its success. I would look forward to work with the team, city officials and other Ashevillians in this capacity. Please contact me if you have any questions.

Sincerely,

Bill Loftis

Good morning Mike:

I hope you are well in this challenging time and am glad to hear that you as the Chair of the Multimodal Transportation Commission and that the work of the Commission are moving smartly along.

It has come to my attention that Bill Loftis is now applying for a seat on the MMTC. I wanted to report that I know Bill as a neighbor and an Asheville citizen and know he would be a splendid choice and would represent the Greenway interest, which you know I espouse, admirably.

Best to you,

Dave

SUMMARY

Career supply chain management consultant leading complex supply chain initiatives across a variety of industries, often for some of the world's largest companies. Focused on developing smarter, more intelligent supply chain solutions.

EXPERIENCE

Principal

Bill Loftis Associates — Asheville, NC
Supply Chain Advisory Firm — Nov 2020 – ongoing
After retiring from private industry, created this platform to collaborate with former clients and technology firms to advance more sustainable supply chain solutions.

Senior Director Integrated Solutions

Transportation Insight — Hickory, NC
Third Party Logistics Firm — Feb 2017 – Oct 2020
Developed new solutions and services, including an eCommerce profitability service.

Director

Kurt Salmon — Atlanta, GA
Consumer Goods and Retail Consultancy — Sep 2014 – Dec 2016
Led the firm's supply chain network design capability, emphasizing a shift to service, speed and value-focused results.

Senior Principal

Tompkins International — Raleigh, NC
Supply Chain Management Consultancy — Jun 2011 – Sep 2014
Designed and recommended numerous significant network and transportation transformations, all successfully implemented.

Principal

Chainalytics — Atlanta, GA
Industry Leading Supply Chain Analytical Consultancy — Aug 2006 – Jun 2011
Developed new service lines focused on integrating analysis and operations to enhance business value.

Associate

The Context Group — Atlanta, GA
Operations and Strategic Supply Chain Consultancy — Jun 2002 – Aug 2006
Partnered with clients and consultancies on network strategy and supply chain collaboration initiatives.

Director

Deloitte Consulting — Atlanta, GA
One of the world's largest consulting firms — Mar 1994 – May 2002
Led large teams in significant, complex transformational projects.

EXPERIENCE (Continued)

Project Manager, Coopers & Lybrand, SysteCon Division Oct 1983 – Mar 1994
A materials handling consulting firm

Sales and Application Engineer, Litton Unit Handling Systems Jun 1979 – Sep 1983
Manufacturer of automated material handling systems

EDUCATION

Batchelor of Industrial Engineering, Georgia Tech 1979 Atlanta, GA

HONORS

- 2010 and 2018 "Pro to Know" by Supply and Demand Chain Executive Magazine
- 2018 Champions Awards "Rock Stars of the Supply Chain" by Food Logistics Magazine

SELECTED PROJECT HIGHLIGHTS

Post-Merger Network Transformation. Rationalized 8 business units and 60+ facilities into a single consolidated network. Reduced costs while increasing service and capacity for growth.

Transportation Master Planning. Led a strategic transportation cost, practice, and systems assessment for a large retailer, delivering over $21M in savings from sourcing, fleet re-alignment, and new systems.

Transportation Business Intelligence Design. Created actionable reporting, revealing key cost drivers and their influence on performance. Improved behavior and sustained 3% cost savings.

Retail Transportation Transformation. Led teams in 15 initiatives over several years, delivering over $100M in transportation savings, resulting in a culture of continuous improvement.

Speed to Store. Analyzed DC to store processes for a large retailer and identified opportunities to reduce time approximately 20% with new carrier processes and flexible DC procedures.

STRENGTHS

Objective assessment of customer needs. An understanding active listener who focuses on the facts, utilizes examples to clarify issues, discuss pros and cons, and achieve consensus.

Creative solution development. Ability to apply deep and broad supply chain content knowledge to creatively solve client needs and achieve performance goals.

Team player. A collegial professional, eager to support others and known to go the extra mile.

MOST PROUD OF

Proving the combined sustainability and profitability of shared horizontal networks. Pioneered research to prove both sustainability and value benefits of horizontal networks in the CPG industry. Teamed with partners to prove the benefits and create an implementation path.

Recognized for applying supply chain analytics as a competitive weapon. Twice named a "Pro to Know" for applying supply chain metrics into meaningful business intelligence.

Client loyalty and friendship. Often re-engaged by clients after many years due to quality experiences and established friendships.

* This information is requested for the sole purpose of assuring that a cross section of the community is appointed.

CHRISTINE HARRIS:

As a Nurse Practitioner, public health advocate and an active community member I believe that I am uniquely suited to serve on the multimodal transportation committee. In 2010 I received my Masters in Public Health from Emory University. This education instilled within me the importance of advocacy and necessity to address the communities health deficiencies. As a nation we struggle with obesity, heart disease, diabetes and depression. Multimodal transport can be a tool to actively address these rampant health risks. After receiving my nursing degree from Duke in 2011, I began working in Duke's Level one trauma center as an ER nurse. I cared for a number of pedestrian accidents caused from poor education and infrastructure. Daily I encountered the effects of chronic diseases within our community. After completing my family nurse practitioner degree in 2017, I began working at a long term care facility and rehab center. This position helped me understand the importance of providing accessible health solutions/transportation to individuals in all stages of life. I have been an active commuter for most of my adult life. I have biked and walked to work and school for over 5 years. As a mother this now looks like riding a cargo bike with 2-5 children on it to do all my tasks of daily life be it picking up milk or even lumber. We are raising our children to understand the importance of active transport and are dedicated to making our community accessible independent of financial status or ability to own/drive a car. My father-in-law has MS and is wheelchair bound- opening my eyes to the difficulty of accessible transportation. I am from WNC and passionate about ensuring our community fosters a healthy, safe place to live, learn and grow for all of neighbors.

Please indicate the area(s) of expertise that you can bring to the above board(s), and then in detail list education, experience, reasons for your interest, and other factors that support your interest in serving **Applicants are encouraged to provide a cover letter and/or a brief resume. Please use additional sheets if necessary.**

I have been a resident of downtown Atlanta (16 years) and Little Rock (4) and an avid bike commuter in each. I have been passionate about creating more sustainable and equitable transportation options since starting my education at Georgia Tech in 2000 and have volunteered with the following environmental sustainability groups over the past 15 years: Sierra Club, Citizen's Climate Lobby (CCL), Little Rock's Sustainability Commission, Little Rock's Bike Friendly Community Committee (BFCC), and Asheville Greenworks (Plastic Reduction Task Force).

I am especially interested in what we can do to take advantage of the COVID-induced focus on equity and sustainability to build on the "positive" changes from the past 9 months. I would love to be a part of concrete action steps that ensure that safe, sustainable, and equitable transportation options are available for all Asheville residents and visitors.

See attached.

Please use additional sheets if necessary.**

My interest are both Greenways and Transit. I am the county's greenway planner so I bring expert knowledge to the table when it comes to the complexity of building greenways. My focus and passion has always been to use pedestrian infrastructure to help reduce carbon emissions and to get lower income communities (and all communities) connected to work, school, grocery stores, and open space. Have more opportunities for people who do not have the privilege of having access to a car or may not be close to a bus route. Greenways can also help the community become healthier by providing safe routes to the listed above opportunities.

OBJECTIVE
To improve community engagement and connectivity within all areas of the city and county. Possess strong interpersonal skills to effectively communicate with staff, and residents.

EDUCATION
Master of Public Affairs May 2015
Western Carolina University

Bachelor of Science, Criminology and Criminal Justice July 2012
Western Carolina University

PROFESSIONAL WORK EXPERIENCE
Planner 1 August 2015 - Present
Buncombe County, NC Recreation Services

- Performs parks and greenways planning which includes securing necessary land for such development.
- Negotiates the allocation of new parks space and assists in developing design concepts for new facilities and renovations.
- Conducts demographic and other research including assistance with additions to the Recreation Services Comprehensive Plan.
- Locates land for greenway development within Buncombe County.
- Coordinates contracting agencies for parks and greenways projects and acts as the department liaison with such organizations.
- Carries out planning studies related to greenways, park projects and other public facilities in order to determine the best future uses of County tax payer's dollars and consequently department capital improvement funds.
- Coordinates administrative components of greenways, park projects and new and existing facility development, which includes preparing and administering divisional budget and obtaining easements.
- Answers inquiries regarding greenways and park/facility plans.
- Prepares charts, maps, graphs and other illustrative material for presentation to elected officials, appointed boards, community groups and concerned citizens.
- Assists the Recreation Services Director in preparing for meetings and public hearings to explain recommendations and planning proposals.
- Coordinates and plans County services and programming along with partner agencies and programs.
- Conducts public meeting and prepares public presentations.
- Plans special events for the residents in Buncombe County within our parks.

- Run the year round program of Buncombe County Special Olympics as the local coordinator. The program has 130 year round athletes and 550 school aged athletes. Our volunteer base is 25 year round volunteers and 100 special event volunteers. We are in charge of all our own fundraising and programing for the entire year.

Summer Intern June 2014 - August 2014
Henderson County, NC Planning Department

- Wrote a Parks and Recreation Trust Fund (PARTF) grant for a community park.
- Photographed and GPS located of all the industrial and commercial businesses in East Flat Rock.
- Assisted in creating new zoning maps for the East Flat Rock community.
- Researched historical facts about the East Flat Rock community for the community plan.
- Contacted manufacturing companies such as MV1, Ford, Dodge, and Nissan, in order to find a Para transit vehicle that would fit the needs of the transit service.
- Learned how to issue zoning permits and cite violations of the land use development code.

Capstone Practical Project Spring 2015
Laurel Park, NC

- Successfully researched and presented an ordinance to allow residents to keep fowl. This involved using the NC Planning listserv, contacting backyard chicken advocacy groups, and presenting to an engaged council. The council approved the new ordinance.

I am specifically interested in representing greenway interest on the commission.

I have worked for more than a decade in support of the Appalachian Trail (A.T), a footpath that connects communities along from Georgia to Maine. I have experience working with land managers, local communities, and volunteers who work cooperatively toward the protection and long-term care of this trail and associated resources. My current work involves mobilizing volunteers, supporting resources for effective partnership, and serving as a conduit of information on issues of A.T. management. My education and professional background includes communications and public relations for a number of organizations. I volunteered for several years on the Connect Buncombe board of directors in support of their mission to educate about and advance greenways in the county.

I am interested in serving on the multimodal transportation commission because I know transportation options aren't mutually exclusive. Thinking holistically about needs across our city, connecting our communities, and making travel safe, efficient, affordable, and enjoyable are all things that I'm deeply motivated to contribute my talents and skills toward.

LEANNA JOYNER

(828) 808-0456 | ljoyner@appalachiantrail.org

Purpose: To apply my leadership, communications, and project management expertise to create alliances, garner support, and leverage opportunities for volunteer and service partnerships for the benefit of public lands.

RECORD OF EXPERIENCE

Volunteer Relations Program Director, Appalachian Trail Conservancy (Feb 2017—Present), Asheville, NC

- Sustain and build capacity for the A.T.'s volunteer management tradition that engages more than 6,000 volunteers in trail maintenance, education, outreach, corridor stewardship, natural resources, and other management programs.
- Serve as the liaison to and point person for National Park Service (NPS) and U.S. Forest Service (USFS) volunteer policies, standards, guidelines, and reporting with 31 A.T. maintaining clubs.
- Facilitated a process for the development of a template for Volunteer Service Agreements between clubs and federal land management partners, and a MOU between clubs and ATC.
- Deliver trainings and provide technical assistance to staff, partner agencies and organizations on aspects of volunteer coordination, management, and partnership.
- Developing a Volunteer Engagement Platform that connects people with volunteer opportunities, tracks their accomplishments, and provides reports to analyze trends.
- Prepare and coordinate annual budget, calendar and workplan for volunteer program management.
- Initiated National Service Coordinators positions to broaden awareness for and participation in volunteer opportunities as part of the 50th Anniversary of the National Trails System Act in 2018.
- Convene the A.T. Saw Program Working Group to achieve programmatic consistency in saw safety program.
- Organize Volunteer Program Coordinator Working Group of the Partnership for the National Trails System, and serve as a Technical Advisor to six-pilot projects for the National Park Foundation's Love Your Park initiative in 2018.

Trail Resources Manager, Appalachian Trail Conservancy (Aug 2013 –Present), Asheville, NC

- Administered ridgerunner program as part of a regional comprehensive approach to visitor use management, which includes new data collection methods, initiating volunteer Trail ambassadors, and establishing the vision and implementation of ATC's Hiker Education Accreditation program.
- Coordinated regional capital planning requests and reporting to federal partners, and ensured club-agency-ATC partnership meetings are held annually as part of this initiative.
- Served as organizational expert on saw safety program and organized initiatives of the working group for programmatic consistency, including saw instructor workshop.
- Bolstered volunteer capacity and skills by connecting clubs with interested volunteer groups and individuals

- Coordinated regional trainings, including Wilderness Skills Institute, a saw instructor workshop, and The Register Blog.

- Managed volunteer recruitment, project logistics, and personnel management for SWEAT and Rocky Top Trail Crews operating in the Great Smoky Mountains National Park between June and October annually. Supported Konnarock crew in GA, NC and TN with project logistics support, local district coordination, and emergency support.

- Developed and manages program budgets; prepares grant proposals and reports.

Special Projects Consultant & Writer, Asheville, N.C. (2010-2013), Charleston S.C. (2004-2005)
Clients: Appalachian Trail Conservancy, Leadership Greater Washington, Lowcountry Environmental Education Program, National Conference for Community & Justice, The Harmony Project

- Researched, developed program content, wrote manuals, and delivered trainings for ATC's Family Program, A.T. Community™ Ambassadors, and A.T. Community™ and Trailhead Design Guides.

- Created strategic plan and budget for marketing A.T. license plates based on market trends, data and existing management.

- Coordinated all aspects of programs and events, including volunteer coordination, scheduling, venue booking, managing registration, program materials, promotions, vendor negotiations, and sponsorship to ensure successful events that met or exceeded profit goals.

STRENGTHS

- Relationship building
- Scenario analysis for decision making
- Expert writer and editor
- Mediating agreements
- Strategic Planning
- Skilled communicator
- 10+ years of media relations experience
- Ability to motivate and inspire
- Positive attitude
- Experienced manager

Program Manager, Appalachian Trail Conservancy, Asheville, N.C. (2006-2009)

- Grew the A.T. License Plate program from one state generating $55,000 annually, to 3 states totaling $116,000 in 2009. Today the program generates over $150,000 annually for ATC's operations in North Carolina, Tennessee, and Virginia.

- Selected to work as part of response team following high-profile events, including 2008 tragedies that garnered national attention.

- Maintained budgets, controlled costs, efficiently managed contractors, prioritized competing demands, and delivered work on time.

- Managed technology development projects related to website development and updates.

Director of Marketing, WNCW 88.7FM, Isothermal Community College, Spindale, N.C. (2004-2006)
Ensured the station's reputation in its home territory by serving as a liaison to station licensee, stakeholders, business leaders, journalists, and coordinated station participation at events across region. Defined and executed marketing plan based on station's strategic goals.

Director of Communications, Leadership Greater Washington, Washington, D.C. (2000-2003)

References available upon request.

Served as the editor in chief of all publications. Wrote copy, managed editorial contributions, organized advertising, and oversaw design of print newsletters, membership directory, and an award-winning annual report. Debuted e-newsletter to reduce costs and expand reach. Worked closely a diverse board of directors and staff to plan experiential encounters with local community issues and special events.

Public Affairs Asst., Electric Power Supply Association, Washington, D.C. (1999-2000)

Brief Bio

Leanna works to celebrate and sustain the Appalachian Trail's volunteer management tradition that currently engages around 6,000 volunteers in trail maintenance, corridor stewardship, natural resources protection, education and outreach. Serving as ATC's organizational expert on policies, standards and guidelines, Leanna works collaboratively with 31 A.T. maintaining clubs, agency partners, board and committee members to support the overall volunteer program for the A.T.

Leanna has worked with the ATC since 2006, working in arenas of marketing and communications, program development, event organization, as well as Trail and facilities resource management. Leanna hiked all of the A.T. in 2003 and nearly half of the Pacific Crest Trail in 2010. The rewards she enjoys while in nature on long trails are those she hopes others will benefit from through her continued work in conservation.
