2. **Veterans Services Updates**

   Joe Calloway Veterans Services Director came to the podium and provided an update on the department and a review of the VA Expenditure Report for calendar year 2025. Mr. Calloway mentioned that the department assists veterans in applying for veteran-specific state and federal benefits in which they may be entitled to. He stated the services include disability compensation for injuries incurred in service, pensions for low-income wartime veterans, widows' pensions, VA healthcare applications, burial benefits, and state benefits such as military and veteran license plates, discounted hunting and fishing license, and the disabled veteran property tax exemption. He added that his team is one of the smaller departments in the county and they serve a small, but invaluable demographic and they make a huge impact on the County. Mr. Calloway presented a PowerPoint presentation highlighting the team's efforts in 2025 and the information shared only accounts for veterans living inside Caldwell County. He stated in calendar year 2025 the team of two dedicated service technicians filed 3,546 claims or 14.8 claims filed per day. He shared the department budget for FY 25-26 was $244,234

and the return on investment from the VA for our county was $90 million, with a direct expenditure that goes directly into the pockets of the veterans of $51 million enabling them to continue to live and work in our community. Mr. Calloway said last year a veteran, spouse and daughter came into the office, the veteran was a retired army warrant officer who had developed significant health issues and declining health due to toxic exposure while serving in Iraq. The veteran had previously filed for compensation through the VA but was denied, however the team worked tirelessly, poured through medical journals, resubmitted the claim and he was awarded permanent and total disability. He added that all VA benefits are tax exempt. Mr. Calloway said there is also indirect expenditures paid for on behalf of the veteran which includes education, VA loan guarantee, memorial benefits, veteran readiness and employment, community medical care and VA medical care. In closing he stated that unfortunately every veteran does not qualify, however, his team upholds the highest standards to produce strong, factual, and effective claims to provide quality service to our nation's war fighters.
Commissioner Potter thanked Mr. Calloway and his team for a phenomenal job.
Commissioner LaBrose thanked Mr. Calloway.
County Manager, Shane Fox asked Mr. Calloway to provide some upcoming events.

Church added that we are honored to have a veteran's office. He then asked Mr. Calloway if he was correct that every county does not have a veteran's office. Mr. Calloway replied, yes, you are correct. Chairman Church said they are thankful to offer this service and stated he greatly appreciates veterans.

3. **Facilities Services - Hazardous Waste Day Updates**

Isaac Bush Facilities Services Manager came to the podium to present an update on Household Hazardous Waste Day Events. Mr. Bush started by saying that he didn't realize the impact that Joe and his team had across the county and he wanted to give the Veteran's Services team a round of applause. 4. **Public Health Department Monthly Updates**

Anna Cook, Health Director, came to the podium and presented the monthly updates for the Health Department. Ms. Cook said the next topic is Accreditation with an approaching January 27th date and documentation due in December. She added that a requirement for reaccreditation, all health departments in North Carolina are required to conduct at least one assessment of current and potential Board of Health rules and policies for each cycle. Ms. Cook stated that a handout had been placed at the Board's seats. She stated that on one side of the handout is the Board of Health rules and on the other side is policy. She then reviewed the committee's results, adding that only 2 rules were found for this cycle review as she described below.

Current BOH rules:
1} Rule would provide the legal authority for the local health director to implement the new Rabies post-exposure management control measures from Compendium of Animal Rabies Prevention and Control 2016, in concurrence with G.S. 130A-197 on 10/7/16
2} Prohibiting Smoking and use of tobacco products in local government buildings, grounds, and vehicles. On 1/25/10
After completing this assessment, it was concluded no additional rules are needed at this time and they will monitor and assess the need in the future.

Ms. Cook then asked the Board if they had any questions about the rules. With there being no questions, Ms. Cook moved forward with the annual review of policies stating there were two revisions to the current Board of Health policies deemed necessary at this time, and one additional new policy, as she described below, adding that annual review of all policies will likely yield periodic updates.

Annual review is required by the Board of Health (BOH) for all health department policies that are in the BOH section of the local health department policies. All new policies require approval from the BOH, regardless of section.

1} Professional Attire Policy was updated to be parallel with county policy- revised 9/2/26
2} Accounting and Finance Policy was updated to reflect current job titles- reviewed 5/21/26
3} BOH training policy, new policy for conducting training- approved10/26/26

Ms. Harrison then reviewed the financial report for September stating that the revenue side was county only this month due to receiving reimbursement late in October rather than in September from the state. She added those numbers will be reflected in next month's report. She added that is not unusual and some of the late reimbursements were due to their new system, PATH NC. Ms. Harrison then reviewed Economic Services, MOU was achieved for Adult Medicaid, Special Assistance Medicaid, Family and Children's Medicaid, Emergency Assistance, and Child Support however, MOU was not achieved for Food and Nutrition.
